Walsh Marine Products
Proven Longevity. Easy to Use. Superior Value.

Product Catalog

High Performance Buoys, Markers and Floats for Waterway Regulation
Our Beliefs
At Walsh Marine Products, we believe that anything worth doing is worth doing well.

We believe in the potential of the American worker. So all of our products are produced with US manufactured components at our facility in Brookfield WI.

Supporting Our Beliefs
To support beliefs, we design and manufacture our buoys, markers and floats so our customers benefit from both product longevity and ease-of-use. Through our innovative design approach, Walsh marine products outperform comparable items. Because Walsh products both last longer and are easier to use and maintain, our customers enjoy an overall lower cost of ownership over time. The resins used in Walsh buoys are both ultra-violet and chemical resistant. So they can better withstand exposure to pollutants and sunlight. Our innovative designs eliminate the need for seams and caps that can result in leakage and premature wear.

**Tough Seal™ Buoy Comparison Table**

<table>
<thead>
<tr>
<th>Feature</th>
<th>Walsh Advantage</th>
<th>Old Buoy Standard</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemical Resistance</td>
<td>HDPE resin is highly resistant to petrochemicals and waterborne pollutants.</td>
<td>ABS resins are more susceptible to degradation from exposure to chemicals</td>
</tr>
<tr>
<td>Impact Strength</td>
<td>HDPE Resin’s pliability is more forgiving. More likely to bend than break.</td>
<td>Rigid ABS plastic has less give and cracks more easily.</td>
</tr>
<tr>
<td>Structural Design</td>
<td>Seamless Design: Prevents seepage, cracking and breakage.</td>
<td>Caps and seams are prone to leakage.</td>
</tr>
<tr>
<td>Hardware</td>
<td>Stainless Steel, Galvanized and PVC</td>
<td>Compare</td>
</tr>
<tr>
<td>Flexibility</td>
<td>Flexibility with minimums, customization and special orders</td>
<td>Minimum order requirements provide a barrier to customization.</td>
</tr>
<tr>
<td>Marking &amp; Lettering</td>
<td>Permanent vinyl markings resist fading from the elements</td>
<td>Screen print inks will fade when weathered</td>
</tr>
<tr>
<td>Maintenance &amp; Refurbishment</td>
<td>Easy-To-Use Refurbishment Kits</td>
<td>Walsh refurbishment kits can be used to repair buoys with faded inks.</td>
</tr>

## Appendix

*Product Table*
Tough Seal™ Regulatory Buoy

9” Diameter, Cylindrical - White

Model # W961R

**FEATURES**

Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.

Equipped with a *standard* 1/2” Diameter stainless steel mooring eye.

All markings are solid vinyl with a 5 year factory warranty not to fade. No Silk-screening.

Seamless, capless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS. and no CAPS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate. Impervious to chemicals i.e.; fuels, solvents and pollution.

Recessed eye with access channels for fast easy connection to clevis, cable or chain.

Stands flat for efficient storage and handling

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

3” reflective band your choice of silver or orange.

Standard symbols and messages.

Self righting without tackle.

**CUSTOMIZATION OPTIONS**

Custom design this product to your specifications.

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
- Pickup eyes,  Heavier wall thickness  Colors
- Hardware for mounting lights
- Cone or Nun top.
Tough Seal™ Safe Water Marker
9” Diameter Cylindrical - White/Red
Model # W961SW

FEATURES

Vertical red and white strips solid vinyl with a 5 year warranty not to fade.
   No Silkscreening.
8” red sphere at top

Designed for use in all areas ie; high traffic, problem areas, channels and areas subject to vandalism.

Equipped with a 1/2” Diameter stainless steel mooring eye, standard.

Seamless, capless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS and No CAPS.
Super tough, no cracking, chipping, peeling or rusting in any climate.

Impervious to chemicals i.e.; fuels, solvents and pollution.

Recessed eye with access channels for fast easy connection.

Stands flat for efficient storage and handling.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

3” silver reflective band

Self righting without tackle.

CUSTOMIZATION OPTIONS

Can be custom designed to meet your specifications
- Owner or agency identification and/or Permit numbers
- Pick up eyes  • Heavier wall thickness
Tough Seal™ Channel Marker Buoy

9” Diameter, Cylindrical- Green
Model # W961CMG

**FEATURES**

- Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.
- Equipped with a 1/2” Diameter stainless steel mooring eye, Standard
- All markings are solid vinyl with a 5 year factory warranty not to fade. No Silkscreening.
- Seamless, capless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS. and no CAPS.
- Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
- Super tough, no cracking, chipping, peeling or rusting in any climate
- Impervious to chemicals i.e.; fuels, solvents and pollution.
- Recessed eye with access channels for fast easy connection to clevis, cable or chain. Stands flat for efficient storage and handling
- Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.
- 3” reflective band
- Self righting without tackle.

**CUSTOMIZATION OPTIONS**

- Custom design this product to your specifications
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Pickup eyes
  - Heavier wall thickness
  - Colors
  - Hardware for mounting lights
  - Cone or Nun top.
Tough Seal™ Channel Marker Buoy
9” Diameter, Cylindrical Buoy, Red with Cone Top
Model # W961CMR

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.

A 1/2” Diameter. stainless steel mooring eye is standard.

All markings are permanently affixed, solid vinyl with a 5 year factory warranty not to fade. No Silkscreening is used.

Seamless, capless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS. and no CAPS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate Impervious to chemicals i.e.; fuels, solvents and pollution.

Recessed eye with access channels for fast easy connection to clevis, cable or chain. Stands flat for upright storage and handling.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

3” reflective band

Self righting without tackle.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Pickup eyes
  - Heavier wall thickness
  - Hardware for mounting lights
- Cone or Nun top
- Custom Colors
Tough Seal™ Regulatory Buoy
13” Diameter Cylindrical - White
Model # W1362R

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.

Equipped with standard 1/2” Diameter stainless steel mooring eye

All markings are solid vinyl with a 5 year factory warranty not to fade. **No Silkscreening.**

Seamless, capless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS. and no CAPS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Recessed eye with access channels for fast easy connection to clevis, cable or chain. Stands flat for efficient storage and handling

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

3” reflective band your choice of silver or orange.

Standard symbols and messages, Self righting without tackle.

CUSTOMIZATION OPTIONS

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
- Heavier wall thickness
- Custom colors
- Stainless Steel hardware
- Custom Designs to your specifications
Tough Seal™ Channel Marker Buoy
13” Diameter Cylindrical Buoy- Green
Model # W1362CMG

FEATURES

- Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.
- Equipped with standard 1/2” Diameter stainless steel mooring eye
- 3” reflective band your choice of silver or orange.
- All markings are solid vinyl with a 5 year factory warranty not to fade. No Silkscreening.
- Seamless, capless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS and no CAPS.
- Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

- Impervious to chemicals i.e.; fuels, solvents and pollution.
- Recessed eye with access channels for fast easy connection to clevis, cable or chain. Stands flat for efficient storage and handling
- Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.
- Standard symbols and messages available
- Self righting without tackle.

CUSTOMIZATION OPTIONS

- Can be custom designed to meet your specifications
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
- Heavier wall thickness  ●  Custom colors
- Stainless Steel hardware
**Tough Seal™ Channel Marker Buoy**

13” Diameter Cylindrical Buoy, Cone Top- Red

Model # W1362CMR

**FEATURES**

- Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.
- Equipped with standard 1/2” Diameter stainless steel mooring eye
- All markings are solid vinyl with a 5 year factory warranty not to fade. No Silkscreening.
- Seamless, capless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. **No ABS and no CAPS.**
- Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
- Super tough, no cracking, chipping, peeling or rusting in any climate
- Impervious to chemicals i.e.; fuels, solvents and pollution.
- Recessed eye with access channels for fast easy connection to clevis, cable or chain. Stands flat for efficient storage and handling.
- Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.
- 3” reflective band your choice of silver or orange.
- Standard symbols and messages available
- Self righting without tackle.

**CUSTOMIZATION OPTIONS**

- Can be custom designed to meet your specifications
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
- Heavier wall thickness • Custom colors
- Stainless Steel hardware
**Tough Seal™ Float Collar Can with External Ballast**

**28” Diameter - White**

**Model # W1428**

---

**FEATURES**

- One piece rotational molded high-density polyethylene polymer shell with UV inhibitors
- Heavy wall thickness, minimum of .140”
- High Stability Design with External Ballast with one piece crack resistant HDPE shell
- Standard Symbols and Messages, Graphics are solid vinyl with a 5 year factory warranty not to fade. No Silkscreening
  - 3” reflective orange band
- Completely filled with Urethane Foam meeting or exceeding United States Coast Guard requirements.
- Impervious to chemicals, ie gasoline, solvents, and pollution.
- Super tough, no cracking, chipping, peeling, or rusting in any climate.
  - Self righting without tackle.

---

**CUSTOMIZATION OPTIONS**

Can be custom designed to meet your specifications

- Reflective symbols and bands: available in both standard and high intensity
  - Recessed bottom mooring eye
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness
  - Custom colors
  - Stainless Steel hardware

Tough Seal™ Shallow Water Float Collar Can
28" Diameter - White
Model # W1428SW

FEATURES

One piece rotational molded high-density polyethylene polymer shell with UV inhibitors
Heavy wall thickness, minimum of .140"
Stainless Steel Mooring Eye Standard
Standard Symbols and Messages, Graphics are solid vinyl with a 5 year factory warranty not to fade. No Silkscreening
3" reflective orange band
Completely filled with Urethane Foam meeting or exceeding United States Coast Guard requirements.
Impervious to chemicals, ie gasoline, solvents, and pollution.
Super tough, no cracking, chipping, peeling, or rusting in any climate.
Self righting without tackle.

CUSTOMIZATION OPTIONS

This product can be customized to your specifications
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Pickup eyes
  - Heavier wall thickness
  - Custom colors
- Hardware and adapter for mounting lights
- Stainless steel hardware
Tough Seal™ Fast Water Float Collar Can
28” Diameter - White
Model # W1428FW

FEATURES
One piece rotational molded high-density polyethylene polymer shell with UV inhibitors
Heavy wall thickness, minimum of .140”
Stainless Steel Mooring Eye Standard
Standard Symbols and Messages, Graphics are solid vinyl with a 5 year factory warranty not to fade. Not Silkscreened.
3” reflective orange band
Completely filled with Urethane Foam meeting or exceeding United States Coast Guard requirements.
Impervious to chemicals, ie gasoline, solvents, and pollution.
Super tough, no cracking, chipping, peeling, or rusting in any climate.
Self righting without tackle.

CUSTOMIZATION OPTIONS
We will custom design this product to your specifications
• Reflective symbols and bands: available in both standard and high intensity
• Owner or agency identification and/or Permit numbers - Vinyl lettering
• Pickup eyes • Heavier wall thickness • Custom Colors
• Hardware and adapter for mounting lights
• Stainless steel hardware
Barrier Float with Swivel Eye Ends
13” Diameter - International Orange
Model # W1300AO

FEATURES
1/2” Diameter rod through with 1/2” bail, swivels both ends
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-den-
sity polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard require-
ments.

CUSTOMIZATION OPTIONS
Can be custom designed to meet your specifications
• Reflective symbols and bands: available in both standard and high intensity
• Owner or agency identification and/or Permit numbers - Vinyl lettering
  • Heavier wall thickness  • Custom colors
  • Stainless Steel hardware
 Barrier Float: Pipe-Through Model
13” Diameter Cylindrical - International Orange
Model # W1300BO

FEATURES
1/2” Schedule 40 PVC pipe-through
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Can be custom designed to meet your specifications
• Reflective symbols and bands: available in both standard and high intensity
• Owner or agency identification and/or Permit numbers - Vinyl lettering
  • Heavier wall thickness  • Custom colors
  • Stainless Steel hardware
Barrier Float with Swivel Eye Ends
13” Diameter x 18” - International Orange
Model # W1318AO

FEATURES
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
1/2” Diameter rod through with 1/2” bail, swivels both ends
Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Can be custom designed to meet your specifications
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness
  - Custom colors
  - Stainless Steel Hardware
Barrier Float - Pipe-Through Model
13” Diameter x 18” - International Orange
Model # W1318BO

FEATURES
- Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
- 1/2” Schedule 40 PVC pipe-through
- Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.
- Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
- Super tough, no cracking, chipping, peeling or rusting in any climate
- Impervious to chemicals i.e.; fuels, solvents and pollution.
- Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
- Can be custom designed to meet your specifications
  - Reflective symbols and bands: available in both standard and high intensity
  - Owner or agency identification and/or Permit numbers - Vinyl lettering
    - Heavier wall thickness
    - Custom colors
    - Stainless Steel Hardware
Barrier Float with Swivel Eye Ends
18” Cylindrical - International Orange
Model # W1800AO

FEATURES

1/2” Diameter rod through with 1/2” bail swivels both ends

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

● Reflective symbols and bands: available in both standard and high intensity

● Owner or agency identification and/or Permit numbers - Vinyl lettering

    ● Heavier wall thickness

    ● Custom colors

● Stainless Steel hardware

● Custom Designs to your specifications
Barrier Float: Pipe-Through Model
18” Cylindrical - International Orange
Model # W1800BO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

1” ID Galvanized Steel pipe-through

Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

● Reflective symbols and bands: available in both standard and high intensity
● Owner or agency identification and/or Permit numbers - Vinyl lettering
  ● Heavier wall thickness  ● Custom colors
  ● Stainless Steel hardware
Barrier Float: with Swivel Eye Ends
18” Diameter x 30” Length- International Orange
Model # W1830AO

FEATURES
5/8” Diameter rod through with 1/2” bail, swivels both ends
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-den-
sity polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate Impervious to chemicals i.e.;
fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard
requirements.

CUSTOMIZATION OPTIONS
Custom design this product to your specifications.
● Reflective symbols and bands: available in both standard and high intensity
● Owner or agency identification and/or Permit numbers - Vinyl lettering
  ● Heavier wall thickness ● Custom colors
  ● Stainless Steel hardware
Barrier Float: Pipe-Through Model
18” Diameter x 30” length - International Orange
Model # W1830BO

FEATURES
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

1” ID Galvanized Steel pipe-through
Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
 Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Custom design this product to your specifications.

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness
  - Custom colors
- Stainless Steel hardware
Barrier Float with Swivel Eye Ends
24” Diameter - International Orange
Model # W2400AO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

1/2” Diameter rod through with 1/2” bail swivels both ends

Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications.

● Reflective symbols and bands: available in both standard and high intensity
  ● Owner or agency identification and/or Permit numbers - Vinyl lettering
    ● Heavier wall thickness  ● Custom colors
  ● Stainless Steel hardware
Barrier Float: Pipe-Through Model
24” Diameter - International Orange
Model # W2400BO

FEATURES
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

1” ID Galvanized Steel pipe-through
Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Custom design this product to your specifications.

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness
  - Custom Colors
- Stainless Steel hardware
Barrier Float with Swivel Ends
24” Diameter x 36” Length- International Orange
Model # W2436AO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

3/4” Diameter rod through with 5/8” bail, swivels both ends

Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes, free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate. Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications.

- Reflective symbols and bands, available in high intensity and standard
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness

24” Diameter x 36” - International Orange
Model # W2436BO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

1” ID Galvanized Steel pipe-through

Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate. Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications.

- Reflective symbols and bands, available in high intensity and standard
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Heavier wall thickness
  - Custom colors
  - Stainless Steel hardware
Barrier Float with Swivel Eye Ends
24” Diameter x 45” - International Orange
Model # W2445AO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

3/4” Diameter Rod through with 5/8” Bail, Swivel Eyes on both ends.

Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough: no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers with permanent vinyl lettering
  - Heavier wall thickness
  - Custom Colors
  - Stainless Steel Hardware
Long Float Buoy
24” Diameter x 45” - International Orange
Model # W2445BO

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, channels, and areas subject to vandalism.

1” ID Galvanized Steel pipe-through

Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes. Free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

Custom design this product to your specifications.

- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
  - Pickup eyes
  - Heavier wall thickness
  - Custom colors
Proven Longevity. Easy to Use. Superior Value.

Mooring Buoy with Swivel Eye Ends
13” Cylindrical - White
Model # W1300MAW

FEATURES
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
1/2” Diameter rod through with 1/2” bail, swivels both ends
Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough, no cracking, chipping, peeling or rusting in any climate
Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Can be custom designed to meet your specifications
● Reflective symbols and bands: available in both standard and high intensity
● Owner or agency identification and/or Permit numbers - Vinyl lettering
  ● Heavier wall thickness  ● Custom colors
  ● Stainless Steel hardware

- Stainless Steel hardware
Hanging Float - Hanging Message Carrier Buoy
18” Diameter x 30” - White
Model # W1830HW

FEATURES
Pickup eye for hanging applications

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

Seamless design rotationally molded from UV stabilized, chemically resistant. ultra strong, high-density polyethylene resin. No ABS.

Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS

● Reflective symbols and bands: available in both standard and high intensity

● Owner or agency identification and/or Permit numbers - Vinyl lettering

● Heavier wall thickness  ● Custom colors

● Stainless Steel hardware
Pipeline Floats with Hangar
24” Diameter Cylindrical - International Orange
Designed for supporting and marking marine pipelines
Model # W2400PHO

FEATURES
Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.
1/2” Diameter rod through with pipe hangar, top eye available.
Seamless design rotationally molded from UV stabilized, chemically resistant, ultra strong, high-density polyethylene resin. No ABS.
Proprietary manufacturing process ensures smooth fully filled shapes free of voids or sink marks.
Super tough shell, no cracking, chipping, peeling or rusting in any climate. Impervious to chemicals i.e.; fuels, solvents and pollution.
Completely foam filled with urethane foam meeting or exceeding United States Coast Guard requirements.

CUSTOMIZATION OPTIONS
Custom design this product to your specifications.
- Pipe hangar available in range of standard pipe sizes, hot dip Galvanized or stainless steel.
- Reflective symbols and bands: available in both standard and high intensity
- Owner or agency identification and/or Permit numbers - Vinyl lettering
- Heavier wall thickness
- Custom Colors
- Stainless Steel hardware
Markers
For Rope and Cable Barriers

FEATURES

Designed for use in all areas i.e.; high traffic, problem areas, and areas subject to vandalism.

3” x 5” Molded through hole accommodates up to 1/2” Diameter cable.

5” x 9” Molded through hole accommodates up to 3/4” Diameter cable.

Seamless construction molded from ultra strong Vinyl plastic. NO ABS!!

Super tough, no cracking, chipping, peeling or rusting in any climate

Impervious to chemicals i.e.; fuels, solvents and pollution.

AVAILABLE COLORS

- Blue / White
- Red / White
- Yellow
Anchors and Anchor Kits

FEATURES

Stainless Steel or Galvanized Hoops
Available in 100 lbs - 300 lbs standard stocked item, heavier anchors available.
Shipped in removable protective fiber forms
Hardware kits available to allow anchors to be made on location

Formed Anchors
WA100G 100 lb w Galvanized hoop
WA100SS 100 lb w stainless steel hoop
WA200G 200 lb w Galvanized hoop
WA200SS 200 lb w stainless steel hoop
WA300G 300 lb w Galvanized hoop
WA300SS 300 lb w stainless steel hoop

Anchor Kits / Accessories
WAK10S Anchor kit 100 lb w/stainless steel hoop
WAK10G Anchor kit 100 lb w/Galvanized hoop
WAK20S Anchor kit 200 lb w/stainless steel hoop
WAK20G Anchor kit 200 lb w/Galvanized hoop
WAK30S Anchor kit 300 lb w/stainless steel hoop
WAK30G Anchor kit 300 lb w/Galvanized hoop
WAHS1 Anchor hoop stainless steel
WAHG1 Anchor hoop Galvanized
Lighting Accessories

**Sealite SL 15 Solar Marine Light**
- One nautical mile of visibility
- User adjustable flash characters
- Bird deterrent spike
- Optional ON/OFF switch
- User replaceable battery in sealed battery compartment
- 3 year warranty
- Available in all IALA colors - White, Red, Green and Amber

**Sealite SL 60 Solar Marine Light**
- Two nautical mile visible range
- User replaceable battery in sealed battery compartment
- 256 IALA flash patterns, user adjustable without need for external devices
- ON/OFF storage switch
- Bird deterrent spike
- 3 year warranty
- Available in all IALA colors - White, Red, Green and Amber

**LRM Marine Lantern T-81**
- One nautical mile of visibility
- Engineered to last an estimated 25 years
- Sturdy polycarbonate/stainless steel construction
- Microprocessor controlled electronics
- User replaceable batteries for reliability and convenience
- Quick release lens clamps for easy on site battery replacement using only a screwdriver.

**LRM Marine Lantern T-82**
- Provides 2 nautical miles of visibility
- Engineered to last an estimated 25 years.
- Sturdy polycarbonate/stainless steel construction,
- Advanced microprocessor controlled electronics
- User replaceable batteries.
- Quick release lens clamps for on site battery replacement using only a screwdriver.
- Designed to be powered by NiMh, NiCd, Sealed Lead Acid, or Alkaline batteries.
Dock and Post Signage

Flat Aluminum Sign
- Anodized Aluminum
- High Intensity reflective backing
- All standard Messages and custom graphics
- 18"x30" in size

Post Sign
- High Density Polyethylene
- Commercial Grade vinyl graphics no fade for 5 years
- 14"x26"
- All standard Messages and custom graphics apply

Hardware
Need mooring hardware? We carry sizes to fit your needs. Hot dipped galvanized and stainless steel, call for pricing. Vinyl coated cable in various sizes also available with no minimum quantities.
